ABOUT US

Founded in 1992, OUQI is a premier manufacturer and exporter specializing in lighters, jet torches, and ignition equipment. Covering an expansive area of over 40,000 square meters, we have dedicated the past 33 years to relentless research, development, and manufacturing. Today, backed by a well-trained workforce of over 400 employees, our annual production capacity has reached a staggering 220 million units.

Manufacturing excellence is the core of our operations. OUQI operates a highly advanced facility equipped with 50+ state-of-the-art automatic injection molding machines, 15 fully automated standard lighter production lines, and 3 automatic painting lines. By achieving a 99%+ automation rate for our standard lighters, we guarantee exceptional precision, cost-efficiency, and on-time global delivery.

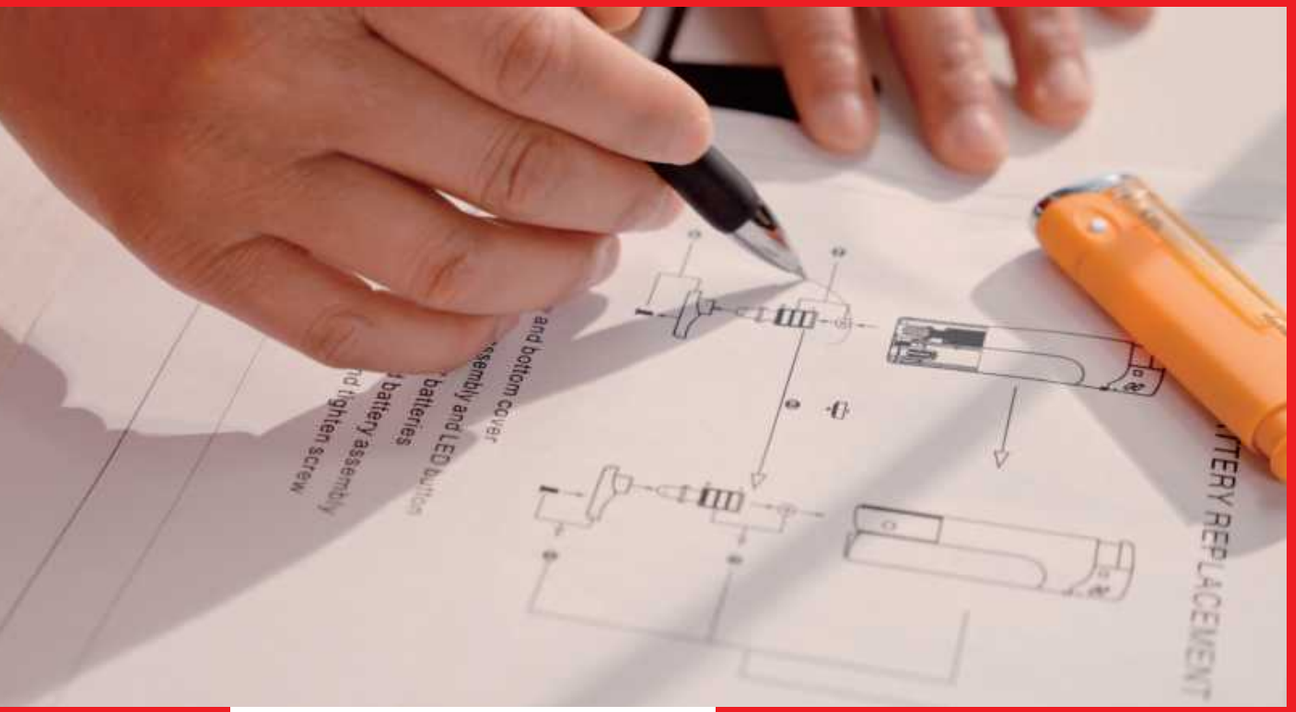
Surviving on quality and thriving on service, OUQI has been continuously recognized as a National "Specialized, Refined, Distinctive and Innovative" (SRDI) Enterprise. We strictly adhere to ISO 9994 and ISO 22702 quality management systems. Our products are 100% compliant with global safety standards, proudly holding international certifications including **BSCI,CPSC,CTCS,UL,TÜV and EN 13869.**This unwavering commitment to quality has enabled us to establish long-term strategic partnerships with world-renowned retail giants such as Walmart, ALDI, and China Resources (CR Vanguard).

Innovation drives our future. With an annual R&D investment exceeding 5% of our revenue, our dedicated engineering team introduces over 20 new designs and functional patents every year. Holding 81 proprietary patents, OUQI continues to set industry trends. For over three decades, our products have been highly favored by consumers, exported to more than 50 countries and regions, and trusted by 1,600+ global brand partners.

ODM

Design & Development

OUQI design teams collaborate with our customers, provide NPD support and joint develop proposals



Over 34 Years Of Evolution

CMF

Mature CMF team
Versatile CMF Solutions
In-house CMF Processing Center

From Concept to Market-Ready Products

Backed by 34 years of manufacturing experience, OUQI offers professional ODM services for customers seeking differentiated lighter and smoking accessory products for their target markets.

With integrated in-house capabilities in R&D, design, mold development, and production, we help turn ideas into market-ready products with greater efficiency, better consistency, and more reliable execution.

Experienced R&D Team

Our R&D team turns market insights and product concepts into practical development solutions with strong feasibility for mass production.

Professional Design Team

From product styling to CMF refinement, our design team creates differentiated products aligned with market trends and brand identity.

From Idea to Prototype

We support the full development process from concept evaluation and 3D design to prototype testing and structural optimization.

Advanced Mold Development

Strong in-house mold capability helps shorten development cycles and improve consistency from tooling to production.

Self-Developed Patents

Continuous innovation and self-developed patents support stronger product differentiation and long-term market competitiveness.

OEM

Stable Production Support, Built for Global Supply

OUQI offers professional OEM services for customers who require dependable lighter and smoking accessory manufacturing.
With strong production capability, automated processes, and a structured quality system, we support efficient mass production, stable quality, and reliable delivery for global partners.

Advanced Technical Capability

Years of manufacturing experience and continuous process improvement support efficient OEM execution and stable product performance.

1

Standardized Management System

Structured internal processes help improve coordination, production efficiency, and delivery reliability.

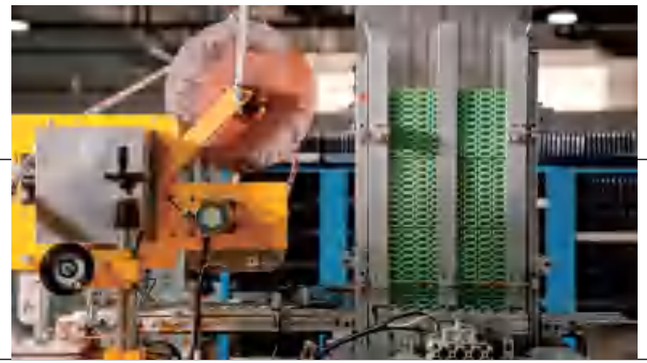
2

Automated & Precision Manufacturing

Automated lines and precision equipment support scalable production with greater consistency and better process control.

3

Precision Testing & Quality Control



Integrated testing and inspection standards help ensure reliable performance and stable batch quality.

4

Carefully Managed Raw Materials

Strict control of material sourcing, storage, and usage helps support product consistency from the start.

5

Over 34 Years of Evolution

To be the most trusted supply chain partner, consistently creating exceptional business value for our customers.

1992

THE FOUNDATION

OUQI was established, beginning our journey in precision ignition.

2005

GOING GLOBAL

Secured independent export license; launched international trade strategy.

2023

SMART MANUFACTURING

Expanded to a 40,000 m² state-of-the-art smart production base.

2024

SPECIALIZED INNOVATION

Awarded National "SRDI" Enterprise status for industry-leading expertise.

2025

RESEARCH LEADERSHIP

Inaugurated the Provincial Jet Flame Research Institute for safety tech.

2026

DUAL-ENGINE SERVICE

Launched Hangzhou Global Trade Hub to provide agile, T1-city service.

Quality & Compliance

International Product Compliance

OUQI products are developed in line with major international safety standards, including **ISO 9994, EN 13869**, and **ISO 22702.**
Selected products and projects are also supported by recognized third-party testing and verification systems such as **TÜV Rheinland** and **GS.**

Quality & Responsibility Standards

OUQI follows a structured manufacturing and quality control system to support stable production, reliable delivery, and long-term cooperation with global customers.
We also meet recognized international responsibility standards, including **amfori BSCI** and **FSC**, reflecting our commitment to compliant and responsible manufacturing.

Patent Portfolio

Continuous innovation has enabled OUQI to build a strong intellectual property portfolio, including **50 design patents, 35 utility model patents, 2 published invention patents,** and **1 granted invention patent.**

Enterprise Recognition

OUQI has been recognized as a **National-Level Specialized, Refined, Differential and Innovative Enterprise** and has also obtained the **Zhejiang Provincial Enterprise Research Institute Certificate,** highlighting our strength in innovation and technical development.

Global Reach & Strategic Partners

50+
Countries & Regions Served

1,600+
Global Partners

OUQI serves customers across more than 50 countries and regions, supporting global brands with stable manufacturing, flexible cooperation, and long-term supply capability.
